**Product of the Month: AW3D Standard 2.5m resolution**

(C) NTT DATA, RESTEC, Included JAXA

We have completed the production of 2.5m resolution data of AW3D Standard for the entire world.

This data is (again) the highest resolution available for any pre-produced elevation data that covers almost the entire Earth.

This latest version of AW3D Standard, which offers 2.5m resolution for extra-detailed expression of cities and terrain, will be utilized for a wide variety of global applications.

For more details, please refer our news release:
